2 Clyde Memories. 1. Govan - written with an industrial flavour based on a major shipbuilding centre in Scotland. 2. The Queen Mary - a representation of a large model ship which took up the full length of The Clyde Model Dockyard's shop window in Glasgow. Both, D,2Tr,Te,B Intermediate+ £5.50 (BN1)

Congratulations, It's Triplets!!! and Luvvit. Congrats - is a slow and relaxed fusion of seriousness and fun, but not as daunting as it first looks. Luvvit - I'm sure you will. Both work well as a pair. Both, 2D,2Tr,Te,B Intermediate+ £5.00 (BN6)

The Sirens - The Sirens, in Greek mythology, were the three daughters of Achelous and Melpomene. They were creatures who lured sailors to shipwreck on the rocks of their island with their enchanting music and singing voices. The waters could be calm, challenging and dangerous. Molpe, Pisinoe and Thelxiepe were the Sirens. Molpe is available separately but the other two are only available in the full set. 2D + 2 Tr. (Bound Score). Higher Intermediate+ / Advanced. £8.00 (LB1)

## Urania and Sequellium

The Muse of Astronomy and a Sequel. 3D,2Tr,B,Gb,Cb. Intermediate. £5.50 (BN4)

All grading levels above are subjective and based on my own playing experience. They should give you an idea of the competence and ability required. As a rough guide/benchmark, Intermediate should be seen in the region of Grade 5 in recorder exams.
