
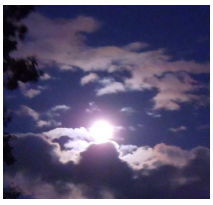
to celebrate the 20th birthday

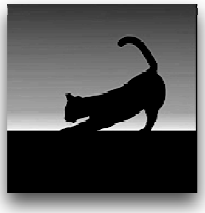
of the Weald of Kent SRP group

In 3 movements:-

I - The Phantom,
creeps stealthily around his new haunt, becoming bolder as he discovers his new skills...
until .....



II - Moon,
rising lazily from her bed, is seen fragmented and obscured by the branches of a tree and wisps of cloud until she breaks free into the clear sky.



III - The Cat,
out on the prowl, jumps from rooftop to rooftop (or one recorder part to another)
